Universal Status Sensors

Part#	Description	Qty	Price	Total
CS2-1	Changes state on an adjustable AC current level (10 Watts on up). It uses a non-contact current sensor next to the line cord to monitor current in the wire.		\$149	
LS2-1	Changes state on any adjustable light level. The stick-on sensor head monitors the light level from panel LEDs for reporting the mode of equipment. It can also measure sunlight level for opening or closing drapes		\$149	
FB2-1	Changes state on an adjustable level of magnetic energy as is found around a TV or computer CRT monitor. It mounts near any target device for non-contact sensing. This feature is especially helpful in gear with "toggle" On/Off commands.		\$149	
AV2-1	Changes state on any adjustable Audio or Video level. The unit senses the output from any source for reporting the mode of that equipment. With adjustable Delay pot.		\$149	
VS2-1	Changes state on any adjustable Voltage level. The unit senses a differential voltage (5 to 50V floating up to 100V) from any source for reporting the mode of that equipment.		\$149	
TS2-1	Changes state on any adjustable temperature level. The remote sensor head monitors the local temperature of the equipment.		\$149	

Total _____

Infrared and X10 Power Line Control Accessories

Part#	Description	Qty	Price	Total
IRV	InfraRed energy Verifier gives an audible translation of any nearby IR pulse stream.		\$39	
MR1	Super Sensitive IR Receiver w/ adjustable gain.		\$99	
SWP	Remote I/O Expander board - Plugs into Cybermate's SWP I/O jack. Adds 8 inputs and outputs (IR or switch)		\$259	
EM1	"Stick on emitter" to place over the infrared sensing eye on your A/V gear. Plugs directly into one of Cybermate's, or SWP's 3.5mm IR output jacks		\$14	
EM2	"Stick on emitter". Same as the EM1, but visibly blinks		\$16	

	when sending IR.			
DM1	Dual "Stick on emitter". Allows the same output to be connected to 2 sensing eyes.		\$18	
BL3	IR Blaster - Plugs into a standard 3.5mm IR output jack. Includes a 9 Vdc wall transformer.		\$79	
TW523	X10 Power line interface between Cybermate and your AC wiring for lighting control		\$24	
XPH	Phase Coupler communicates X10 signals across both 110V sides of house wiring.		\$69	
X10 Modules	Full line of X10 Power Line Modules. Contact Dancraft		Call
